MS VICKY'S CLASSROOM

What an immensely gratifying and stimulating half term it has been, we give God all the glory. We worked together, put in our best effort, gained knowledge and expanded our horizon. Thank you dear parents for all your support. The children have developed immensely physically, intellectually and socially. They have made excellent progress in all aspects of learning and have definitely grown more mature in the process. The half term has been full of interesting activities and the children remained engaged and stimulated throughout. During each activity, the children were encouraged to think, reason and ask questions.

Working with our theme 'The Things We Wear' has indeed been amazing. Now we know so much: The cloth we wear on our body: UNDERWEAR (pants, singlet), VEST, and JACKET. The things we wear on our feet: SLIPPERS, SANDALS (buckle, strap and lace) and SOCKS (pop sock, ankle sock, hose sock). We can now identify, polka dot and check clothes. We have also learnt how to care for our shoes- By cleaning, by polishing, by brushing and guess what; we can now polish our shoes ourselves.

It was fun making craft work of dresses, socks, sandals, caps and hats.

In Numeracy, we can count and write 1- 250, fill in the missing numbers, identify odd numbers and add 2-digit numbers.

In Literacy, we are doing well with our digraphs, recognizing sight words in print, spelling more complex words, reading more passages, answering questions from a passage, re-telling stories, filling missing letters sounds in words. Story time has also been a splendid experience. Please buy lots of books and read with them every day.

We wish the children a restful mid-term break and appeal to you to ensure the children complete their holiday take-home.

AFTER THE MID TERM BREAK:

We would be busy with a lot of activities;

- Introduction to blends fl, cl, gl and its rhyming words.
- Identifying heavy, light clothes, different fabrics; cotton, silk e. t. c. Identifying the importance of shoes, clothes, hats.
- Subtracting 2-digit numbers, count and write 1-300, filling the missing numbers, identifying ordinal numbers, identifying even numbers.
