Year Two

Greetings from year 2 classroom! We are happy to have our friends back in school after mid-term break. I hope my friends and their family members rested well. Our focus is still on working diligently and making remarkable progress to make our parents and our school proud.

United Nations Day celebration was interesting as year 2 pupils represented Germany. We learnt about their flag, food, culture and some interesting facts about Germany that you may not know.

Our excursion to the Chinese embassy was a memorable one as my friends were taught how to greet in Chinese language, (chei-chei) watch a video of interesting places in China, explored the office of the attorney general of china, Art work session, kong fu and finally had a photo session with the Chinese at the embassy with gifts it was amazing.

We have learnt under this two weeks:

Literacy: the use of pronouns, preposition proper and collective nouns. Identifying and using them in sentences also.

Numeracy: is in progress as we can now solve addition of 3 digits with regrouping, subtractions of 3 digits with and without regrouping, writing numbers serially in words and figures, solving words problems on addition and subtraction of 2 digits respectively.

Social Studies: is getting more interesting as we know different modes of worship, types of religion, definition of worships, belief and festivals of different ethnic group in Nigeria.

Religions Studies: we've learnt about how Moses delivered the Israelites from the red sea, how to be good and kind to other, the call of Samuel and how God fed Elijah in the desert.

Geography: pupils can say difference between ocean and beach, disaster define natural disaster with example, know some interesting facts about Africa and can also mention countries and Rivers in Africa.

Science: we can identify the young one of some animals, define soil, importance of soil and types of soil, moving air, effects of moving air, water, sources of water and qualities of good water.

A LOOK AHEAD

Numeracy: Division and mixed operation

Grammar: subjects and predicate

Social Studies: resources in the community

Religious Studies: the story of David and Goliath

Science: quality bad water, qualities and danger of bad water.

Geography: Ancient places in Africa

History: Samuel Ajaye Crowther
